

# SEMPU ACCELERATOR

ACCELATOR FOR 1K PU BASED LIQUID MEMBRANES

# SEMPU ACCELERATOR

## ACCELATOR FOR 1K PU BASED LIQUID MEMBRANES

### TECHNICAL DATA SHEET(TDS)

DATE:05.10.2022

REV. DATE:01.01.2025 REV:02

### 1 DESCRIPTION

**SEMPU ACCELERATOR**, is a high-tech accelerator. It offers the highest correlation between container size and curing speed. designed to achieve a high level of efficiency. Mechanical properties of the coating as well as its contribution to drying time, also increases its hardness and chemical resistance

QUALIFICATIONS	UNIT	METHOD	FEATURES
Appearance	-	-	Transparent, liquid
Specific Gravity	gr/cm <sup>3</sup>	ASTM D1475 / DIN 53217 / ISO 2811 / 20°C	0.90-1.00

### 3 ADVANTAGES

- Eliminates air bubbles and other surface defects that may occur during application.
- Allows thick coat application.
- Significantly increases the thixotropic value of the film (aids application on vertical substrates).
- Contains non toxic substances.

### 5 PACKAGING

- 1 kg metal can.
